PROFILE SUMMARY

Motivated, Hard Working and Willingness to relocate. I want to work with an organization where I can enhance my skills and get opportunity to grow with the organization. I have deep passion to learn new technologies. I am a strong logical thinker.

HIGHLIGHTS

- **Programming Languages:** Python
- **AI Techniques:** RAG Technologies (data Ingestion pipeline, query retrieval pipeline & integration LLM model).
- **Python Skills:** Variables, Data Types, Control Structures, Functions, works on Arithmetic, Relational & Logical operators, works on if statement, while loop & for loop, Attributes & Methods, Data Structure (List, Tuples, Dictionaries, Sets, Strings), List Comprehensions, Decorators, Generators, Iterators, Object Oriented Programming (Class, Objects, Inheritance, Encapsulation, Polymorphism), File Handling (Reading & Writing Files), Exception Handling (Try, Except), Functional Programming (Lambda Function, Map Function, Filter Function, Reduce Function), Multithreading, Pickling & Unpickling, Logging, Modules & Packages
- **MySQL Skills:** data types, constraints & indexing (NOT NULL, PRIMARY KEY, FOREIGN KEY), operations (insert into, update, delete), sorting, operators & wildcards (AND, OR, NOT, BETWEEN, LIKE), aggregate functions & grouping (COUNT, SUM, AVG, MIN, MAX, GROUP BY and HAVING), joining data (INNER JOIN, LEFT JOIN, RIGHT JOIN), subqueries, transactions (commit & rollback)
- **Frameworks:** Skills in developing & integrating models using FastAPI.
- **Front-end Skills:** Basic Knowledge of (HTML, CSS, JavaScript)
- **Git & GitHub :** working knowledge of version control system on (e.g., Git).
- **Machine learning Skills:** Missing value handling, Encoding, Outlier handling, Feature scaling, Feature selection technique, Feature extraction (PCA), Regularization, Confusion matrix, Cross validation, Bagging technique
- **Machine learning models:** Multiple linear regression, Polynomial regression, Logistic regression, Naïve Bayes, Decision trees, SVM, KNN, Random forests, k-means clustering, Hierarchical clustering, DBSCAN clustering, Apriori algorithm, FP growth algorithm
- **Machine Learning Frameworks:** TensorFlow, Keras
- **Deep learning models:** ANN, CNN, RNN
- **Tools and Libraries:** NumPy, Pandas, Matplotlib, Scikit-learn, OpenCV

Networking Skills

- **Routers:** RIP(V1,V2), OSPF, EIGRP, DEFAULT/STATIC ROUTING. Configuration NAT&PAT, ACL(Standard and Extended), VPN
- **Switches:** VLAN,VLAN Trunking, VTP,STP, STP BPDU Guard, Root Guard, Configuration of Vlans, Inter-Vlan Routing, Port-security , Configuration of Ether Channel (PAGP &LACP)
- **Other Protocols:** Telnet, DHCP, TCP/IP, OSI Model, LAN&WAN Communication, IPV4 Addressing, Subnetting, Basic knowledge of IPV6, Backup of IOS and Password recovery

WORK EXPERIENCE

Python Developer, working as Associate Software Developer as a part time and create programs by using Python language build one small pharmacy management application, works with RAG technologies (data Ingestion Pipeline & query retrieval pipeline).

My Achievements list during this time period.

Python Projects:

1. E-commerce app create by using python and django framework with mysql database and deployment it on pythonanywhere. Please go online Link-
<https://s3w1a0p5a7n.pythonanywhere.com>
2. Pharmacy Management System Software creation. Please go my profile to view-
<https://swapancodes.github.io/website/>

Network Engineer, Nipun Net Solution Pvt Ltd (June 2023 – June 2024, Kolkata)

Roles & Responsibilities:

1. Cisco Switch 2960 Configuration(Vlan, Trunking,)
2. Cisco Switch 3850 Configuration (Vlan, LACP Protocol, ip routing as per vlan wise,telnet configure, ip helper-address configure)
3. configuration Scope of DHCP Server.
4. Aruba 2930 Switch Configuration (Vlan, Tagged,Untagged,Lacp)

Tech Support, Informatics Technologies Pvt Ltd (August 2022 – May 2023, Gujarat)

Roles & Responsibilities: I have worked on Python project to build one Pharmacy Management System Software written Python code and established connectivity with MySQL Database. Responsible for writing reusable, testable and efficient code ensuring the applications performance, security and scalability

Desktop Support Engineer, IMSI Staffing(A TeamLease Company) (Feb2021 – Aug2022 , Haldia,WB)

Roles & Responsibilities:

1. installation of Windows server 2012 R2 (PDC & ADC) both
2. install Roll & Features of ADDS, DNS, DHCP
3. create User,Group & Computer Accounts in Active Directory
4. join in domain from Clients
5. configuration Scope of DHCP Server
6. DHCP Server Backup & Restore
7. Full Server Backup
8. install and configuration DNS Server
9. create Group Policy Objects(Wallpapers, Pendrive access block, password policy etc) in Domain
10. install and configuration NTP Server
11. add Forward Lookup Zone
12. add Reverse Lookup Zone
13. Knowledge of ADFS and LDAP

14. Clear Concept how office 365 integrate with Active Directory
15. Port number of POP3, SMTP, IMAP
16. knowledge about Microsoft Intune and OU
17. Files Sharing
18. System Image Backup & Recovery
19. Hikvision Bullet Camera install, Configuration & Troubleshooting
20. NVR Configuration and troubleshooting
21. Camera recording download
22. iVMS-4200 install and configuration
23. I have Configured HP Aruba 2930M Switch (VLAN Create, Tagged, Untagged Port)
24. DHCP Configuration on Core HP Aruba 2930M Switch
25. Switches Configuration Backup
26. HSRP Configuration
27. Clipping
28. 42U Rack Installation
29. 802.1x port configure and Troubleshooting in Switchport
30. MAC Binding on Switchport
31. Configure VLAN , VTP and Switch Port
32. Wireless Router Configure
33. Troubleshooting LAN Related Issues reported by users

System Engineer, Precision Techserve (M) Pvt. Ltd (Oct2019 – Jan2021 , Hooghly,WB)

Roles & Responsibilities:

1. Installation and Configuration of Windows based Operating systems (Windows Vista,7,8 &10)
2. Software Installation and Troubleshooting of all types of Customer Oriented field problems,network setting for 3.TCP/IP and Internet setup
4. IBM Lotus Notes Configuration
5. Configure and Troubleshooting of Desktops and Laptops for L1 & L2 Backup and recovery
6. Configure and Troubleshooting of Printer , Scanner and LAN Related Issues reported by users
7. Installation and Configuration of Wireless Data Cards in User laptops
8. Active Directory User creation and Deletion
9. Maintenance and Troubleshooting of connectivity problems using ping , traceroute
10. Users Group Policy Creation and Modification

Software Support Engineer, Aidni Infotech Pvt Ltd (April 2019 – Oct2019 , Kolkata)

Roles & Responsibilities: web development , back-end and front-end software support. Discuss with clients to

Understand the requirements.

- **Private Tutor (Mathematics)**, Self-Employed (2014 – 2019, WB)

QUALIFICATION

- **B.Sc. in Mathematics, University of Calcutta, 2014**
- **Higher Secondary (Science), W.B.C.H.S.E, 2011**

TECHNICAL QUALIFICATION

- **Post Graduate Diploma in Software Engineering, from THE INSTITUTE OF COMPUTER ENGINEERS [INDIA]**
- Completed a Networking Course **CCNA** on Routing & Switching from IINT During Mar-2017 to Feb-2018

SOFTSKILLS

- Problem-Solving

- Communication
- Collaboration
- Time Management
- Critical Thinking
- Adaptability

PERSONALDETAILS

Date of Birth: February 3, 1992
Languages Known: Bengali, English, Hindi
Nationality: Indian
Marital Status: Unmarried
Gender: Male
Category: General
